

## Project Title: TBD

Team Members: Shineka Barnett, Kristin Castaneda, Dahmane Skendraoui, Mer Manahan

## Project Proposal/Outline:

Example→ Our project is to uncover patterns within the job market for data scientist . We'll examine relationships between market saturation and geographical location; skill sets and salary averages; company size.

## Research Questions:

Where are the Data Analyst, Data Scientist and Data Engineer Jobs? What skills do they have? How many people are in the field vs how many jobs are available? Which big cities are saturated with data analyst, scientist and engineers?

## Sources/Datasets:

Indeed.com
